## INSTRUCT NEW MEN

**40 ARE IN QUOTA GOING TO CAMP BOWIE, TEXAS, TOMORROW**

## LEARN REQUIREMENTS

**Speakers Explain What Is Expected of Men in Camp and on the Firing Line.—7:50 Burlington.**

Forty men called to go to Camp Bowie, Fort Worth, Texas, were given preliminary instruction this morning prior to their entrainment tomorrow morning that they might have a closer knowledge of what will be required of them as soldiers. The men were assembled in the circuit court room, where they were given information concerning army life and the things that go to make a good soldier.

Lieut. Burns in charge of the Student Army Training Corps at the Normal, presented a picture of life in camp and told the men what would be required of them in a military way.

M. E. Ford spoke briefly concerning the causes of the war and the things for which America stood. Rev. C. Emerson Miller enumerated some of the moral and spiritual requisites that go to make a good soldier than which no finer exists that the American man in khaki who fights under the Stars and Stripes.

George Robb Ellison and Miss Bettie Turner of the Home Service department explained briefly the benefits of the service, Mr. Ellison telling at some length the provisions made by the government for insurance, allottments and allowances.

John E. Stephenson of Ravenwood, was put in charge of the men during their trip to Fort Worth. The men were given permission to return to their homes this afternoon, to report for entrainment Wednesday morning via the Burlington. Those who live where access to the road is easier than to come to Maryville were given permission to entrain from their closest railroad station.

The men will be escorted to the depot in the morning by the Home Guards who will assemble at the armory at 7:15 o'clock and march to the Burlington station.

## ONLY TWO RETURNED ALIVE

**Sergt. Charley Harper Back in Fighting line Again After Having Recovered From Wounds.**

Word has been received by Mr. and Mrs. T. E. Harper of Nodaway county, parents of Sergeant Charley Harper, wounded and gassed in a recent battle in France is back on the firing line again, having recovered from his wound. The information came from one of his companions who wrote that young Harper led his men in one of the severest battles of the engagement only two of them returning alive. Will Harper another son wounded in the same engagement is now in Washington where he is being fitted with an artificial limb. He is expected home in November on a sixty days' furlough.

**June Blagg Returns to Camp.**

U. S. Food Administrator for Nodaway County, Missouri.

## HEROIC ACT IS WARDED

**Honor Comes After Death to Franklin D. Bellows, Aviator, Who Rests in Grave in France.**

Second Lt. Franklin D. Bellows, the son of Mr. and Mrs. John Bellows of Wilmette, Ill., and a nephew of Charles D., Fayette and Mrs. George P. Bellows of this city, who was killed Sept. 13, in action near St. Mihiel, France, has been rewarded with the Distinguished Service Cross by General Pershing.

Lieut. Bellows and Second Lieut. Dave C. Beebe, observer and pilot with the 50th aero squadron, together made the flight which won recognition for both from their commander-in-chief and the particulars are told in the following citation from headquarters:

Second Lieut. Dave C. Beebe, Pilot, 50th Aero Squadron—For extraordinary heroism in action near St. Mihiel, France, Sept. 13, 1918. Lieut. Beebe, with Second Lieut. Franklin B. Bellows, observer, executed a reconnaissance mission early in the morning of the second day of the St. Mihiel offensive, in spite of clouds, high wind, mist flying at an altitude of 300 meters and without protection of accompanying battle planes. Although subjected to severe fire from ground batteries, they penetrated eight kilometers behind the German lines. Lieut. Beebe's motor was badly damaged and his observer, Lieut. Bellows was mortally wounded. Despite these conditions he succeeded in bringing the disabled machine safely to his lines. Address, Syracuse, N. Y.

Franklin D. Bellows, deceased, Observer, 50th Aero Squadron—For extraordinary heroism in action near St. Mihiel, France, Sept. 13, 1918. (See above citation). Address, Wilmette, Ill.

## WILFLEY TO SPEAK

**TO DELIVER POLITICAL ADDRESS HERE OCTOBER 25.**

## SUPPORT WAR PROGRAM

**Senator Points Out Need For a Full Vote at Coming November Election.—On Tour of State.**

Senator X. P. Wilfley will speak at the court house in this city Friday night, October 25, at 8:30 o'clock, in the interest of the Democratic candidates. This will be Mr. Wilfley's second visit to our city, he having made a speech here during the primary campaign.

Senator Wilfley left St. Louis yesterday to make a campaign tour of the state which will close on election day. In a statement, Senator Wilfley says:

"Since Fourth Liberty Loan campaign is ended it is important and proper to take up the coming election. While the situation look unusually favorable to the Democrats, it is important that we have a full vote, which always insures the party's success in Missouri.

"The importance of this election cannot be overestimated. This is a critical time in the progress of the war.

The status of the diplomatic negotiations is especially important. President Wilson has shown himself master of the situation and has gotten Germany committed to all the terms of peace which he has dictated, a remarkable result for such a brief interchange of notes.

"The appeals of Germany, Austria and Turkey show that the world is looking to Woodrow Wilson to work out a basis of settlement of the complicated international questions necessary to bring peace.

"His negotiations all point to an unconditional surrender of the armies and navies of the Central Powers. No man can say that he has not acted with courage and wisdom. The present status of the diplomatic negotiations is delicate and difficult.

"It is not only necessary to support the war program of the President, but is very necessary at this time to stand by him in the position he has taken in these negotiations.

"I feel that it is extremely important to elect a Democratic Congress to show to the world that the American people are in favor of a vigorous prosecution of the war, and approve the fearless and determined position taken by Woodrow Wilson.

"Joseph W. Folk, our candidate for the United States Senate from Missouri has been tried in places of public trust and has always proven able and faithful. His experience in Washington has peculiarly fitted him for the United States Senate at this time. His association with and friendship for the President is such that those who believe in the policies of Woodrow Wilson can without hesitancy give him their unstinted support.

"On the State ticket with Gov. Folk we have two other exceptionally strong men. Judge W. W. Graves, by his learned decisions on the Supreme bench, has taken rank with the leading jurists of this country. He is one of the strongest men who has been on the Supreme bench in many years.

"Uel W. Lamkin, for Superintendent of Schools, is a man of fine personality and ability and has made a record as State Superintendent of Schools that has attracted attention throughout the country. He is a progressive school man and stands as one of the active educators of the United States.

"The Democratic nominees for Congress in Missouri are all men of splendid ability and are able champions of President Wilson's war program. We must support that program, and the best way to do at this time is to support the Democratic ticket."

## SISTER DIES IN ST. JOSEPH

**Funeral Services for Mrs. Walter Neidorf Held Today.**

Mrs. Walter Neidorf of St. Joseph, a sister of Mrs. Chris Juhl of Clyde, died Sunday night at her home, her death following a short illness with influenza One child in the family is also quite ill with the same malady.

Mrs. Neidorf leaves her husband and five children, her mother, Mrs. Frank Koover of Kansas City, two sisters, Mrs. Juhl of Clyde, and Mrs. Don Lamb of Canon City, Colo., and one brother, George Brace of Kansas City. Funeral services were held this afternoon at the family home in St. Joseph.

## POLK REACHES GOAL

**LOAN QUOTA OF $296,300 Is Fully SUBSCRIBED**

## COUNTY SHORT $40,000

**Complete Reports From All Townships Not Yet in.—Local Committee Plans Celebration.**

Polk township went over the top today in the Fourth Liberty Loan with her quota of $296,300 fully subscribed. The soliciting committee worked unceasingly and their efforts were rewarded with success. So earnest was their work that Monday they did not stop for dinner, but kept at it during the entire day.

With complete reports from the other townships in the county not yet available it is estimated by Chairman W. C. Pierce that the county outside Polk township is yet short between $40,000 and $45,000, approximately $15,000 having been reported up to late last night.

In celebration of Polk township's achievement in reaching the mark set the committee composed of Ed Keck, W. W. Jones, H. L. Raines and M. E. Ford have announced a patriotic jubilee to be held Thursday evening at 7:30 o'clock on the court house lawn. There will be patriotic speeches and a Liberty Flag raising, the emblem to be raised by the Boy Scouts.

Further announcement of the details of the program will be announced by the committee tomorrow.

## PLAN FOR COMING EVENTS

**Northwest Missouri High Schools Are Urged to Enter Association.—Forty-three Are Now Members.**

Herman P. Swinehart, corresponding secretary of the Northwest Missouri High School Association, has written the high schools in this district urging them to join the association. There are 115 high schools in this district and forty-three of them are members. The membership fees are $2 for first-class schools, $1.50 for second class schools, and $1 for third class schools, as classified by the State Department. The entry fees are payable each year and consist of an assessment of twenty-five cents for each event entered during the year. The events are six in number: Debates, literary contests, song, basketball, track and football.

No arrangements have been made for the funeral as the family is awaiting a message from another son, Paul Kuchs, who is in army service at Camp Sevier. S. C.

**ASK $2.46 FOR 1919 WHEAT.**

Special to The Democrat-Forum.

Washington, Oct. 22.—That a maximum price of $2.46 a bushel for No. 1 northern spring wheat or its equivalent, based on Chicago delivery, be fixed for the 1919 crop, was urged upon President Wilson today by the National Wheat Growers' Association.

# FOCH HITS NEW BLOW

**STRONG FRENCH FORCES TODAY DELIVERED A NEW ASSAULT ON FLANDERS FRONT—IN SPITE OF STIFFENED RESISTENCE THE ALLIES ARE SWEEPING ON**

## AT VALENCIENNES

**BRITISH ARE NOW BUT HALF A MILE FROM CITY COMPLETING POCKET MOVEMENT**

## YANKS IN HARD FIGHTING

**EAST OF VERDUN THE GERMANS ARE OFFERING DESPERATE RESISTANCE, BUT AMERICANS PUSH AHEAD**

## FRENCH ARE AT THE DANUBE

**Have Cut Another Line of Communication Between the Central Empires and Constantinople.**

London, Oct. 22.—A new attack was begun on the Flanders front by the French today and excellent progress was made in the direction of Ghent. The new assault was delivered by strong forces.

London, Oct. 22.—German resistance has stiffened at some points throughout the past twenty-four hours on the western battle front. The Allied advance continues, however, and the big German base at Valenciennes has been steadily pocketed, the British being now only half a mile away from the city. Between the Escaut canal and the Lys river the British gained nearly a mile. This advance was carried out in the district north of the triangle formed by the cities of Lille, Roubaix and Turcoing. Deynse is surrounded by the French and British and its fall is imminent, if it has not already been captured.

The Allied forces east of Cambrai are now only fourteen miles from the German stronghold at Aulnoye which General March, chief of staff recently described as one of the most vital German key positions on the western front.

The Americans are meeting with desperate resistance northwest of Verdun but are carrying out a steady operation and in spite of the stormy weather and strong opposition are steadily going forward.

London, Oct. 22. —The Allies made a new advance of nearly a mile between the Scheldt river and the Lys river, on the Flanders front, the war office announced today. The Germans abandoned their defense guns on the coast including the long range cannon that has been shelling Dunkirk.

London, Oct. 22.—The French have reached the Danube river, cutting another line of communication between the central empires and Constantinople. Turkey's departure from the war and from the German alliance is expected to be hastened by latest developments on the Balkan front.

London, Oct. 22.—The Serbians and French are rapidly approaching the border of Herzogovina, an Austrian province bordering Montenegro on the north and Serbia on the northeast, said an official dispatch today. The German commander on the Serb front is attempting to concentrate his forces, but great numbers of Austro-Hungarian and his German soldiers are deserting, thus hindering the movement.

## EVERETT WILSON, 25, DEAD

**Died This Afternoon at the Family Home in Parnell.—Death Due to Pneumonia.**

Everett Wilson, the son of Mr. and Mrs. B. L. Wilson of Parnell, died this afternoon at the family home. Death was due to pneumonia. No arrangements have yet been made for the funeral services.

The young man was 25 years old and is survived by his parents and five brothers and sisters. They are Mrs. M. Price, Hugh, Charlie, Ara and Frank Wilson.

**3,000 KILLED IN RIOTS.**

Special to The Democrat-Forum.

London, Oct. 22.—Three thousand persons have been killed in riots in Sofia, Bulgaria, according to a Copenhagen dispatch to the News Agency. The Bolsheviki agitators are declared to be responsible. Copenhagen also reports one hundred German soldiers were drowned when a German troop ship struck German main land while bound from Riga to Danzig.

**Mrs. Born Dies With Pneumonia.**

Mrs. Elizabeth Howland and daughter, May, went to Savannah yesterday afternoon, called there by the serious illness of Mrs. Howland's sister, Mrs. Emma Born, who died at 4:30 o'clock this morning. Mrs. Born's death was due to pneumonia.

## WAITING WILSON'S ANSWER

**WITH MIND MADE UP, ANNOUNCEMENT IS EXPECTED ON HUN NOTE LATE TODAY**

## ACTION MAPPND OUT

**IT IS TXPECTED HE WILL PLACE OFFICIAL VERDICT OF "UNSATISFACTORY" ON REPLY**

## THE ANSWER IS COMPLEX

**Lord Northcliffe Says It May Be a Move to Gain Time.—Denial of Outrages Was Expected.**

Washington, Oct. 22.—President Wilson has fully decided on his attitude toward the latest German note regarding armistice. His first action was mapped out at a conference last night with Secretary Lansing and with other officials today. He expected to make a definite announcement dealing with the matter late today or tomorrow.

Washington, Oct. 22.—The world waited on President Wilson today. He was expected to place the official verdict of unsatisfactory on the latest German note which was officially delivered at ten o'clock this morning by the Swiss charge. Just how far he would go down only the President himself, and Secretary of State Lansing knew.

London, Oct. 22.—Lord Northcliffe, commenting on Germany's reply said:

"A hasty perusal of the German note reveals thot, with truly Prussian selfishness, no mention is made of Austria-Hungary or Turkey. It seems to me that the document may be read either as a means to gain time or as a confession of a state of affais militarily and economically worse than we know.

"The German government may be hoping to exploit the conditions of the armistice as an outrage upon German honor and as a means of rallying the German nation for desperate resistance, or it may simply be trying to put the President into the positions of trustee for the German people, which will have thrown itself upon his mercy

"The least satisfactory feature of the reply is the shameless prevarication with regard to German outrages on land and sea, and the suggestion that this be dealt with by a neutral commission is a mere subterfuge. The reguments employed to prove that a reform of the German constitution has been accomplished are unworthy of serious consideration.

## FEWER INFLUENZA CASES

**But One Case for Quarantine Was Reported to City Physician Today.—Disease Believed to Be Checked.**

With but one new case of influenza reported to Dr. F. M. Ryan, city physician since last night, the spread of the disease is believed to be checked. No cases were released from quarantine today, due to the absence of Dr. Ryan in the country, but reports made at his office indicate that a number have sufficiently recovered as to permit of quarantine being taken off. No effort will be made, at least for a few days, looking toward lifting the closing order which will doubtless remain in effect for the remainder of the week.

## SPANISH INFLUENZA RAPIDLY SPREADING

Persons Weak and Rundown Easy Victims—Fortify Yourself Against It by Taking Tanlac.

According to late reports issued by State and Federal health authorities the Spanish influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health, but unless checked, it is apt to seriously affect the progress of war work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected.

The disease has made its greatest progress in the East, where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In many cities schools, churches and theaters have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and rundown are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily this warning should be heeded promptly. You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all, Tanlac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in the natural way.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after effects of influenza, grippe or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that the every day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds.

Tanlac is sold in Maryville by the Koch Pharmacy. Adv.

### "ON TO BERLIN"

By a Patriotic Maryville Mother, Who Writes the Way We All Feel.

The following poem, which is tritely expressive of the typical Yank spirit, was written by a prominent Maryville matron who has a son in France and who asserts her patriotism in deeds and words at home while the boy is fighting abroad.

What shall the answer to the peace note be
That we shall send to Germany?
Unconditional surrender is the call
That resounds from one and all.

On to Berlin is the cry.
Throughout this land of ours.
Germany must surrender arms
Unto the Entente powers.

On to Berlin our boys will go.
Triumphant over every foe.
Raise the Stars and Stripes on high,
Bid Autocracy goodbye.

Since the Yanks have taken hand
Bill is ready to disband
Called his sons to all come in
Plan to help him save Berlin.

Now since Bill is on the run,
The boys are having lots of fun.
Of course he's ready to talk peace,
And willing for thies war to cease.
Of course to have his way,
World dominion some other day.
Uncle Sam has made his bow—
Says, "We'll finish the job right now."

We'll keep righth on with all our might
Close up the deal, and do it right.
In years to come as come they will
There'll be no more trouble with
Kaiser Bill.

Hurrah! for our boys and Allies true
Who have undertaken this job to do,
They will ne'er give in nor stop to nap
Until they put Germany off the map.

### Continental Countries Carry Forms of Salutation and Courtesy to What We Consider Extremes.

In all continental countries men lift their hats when saluting one another. It is also customary for them to uncover their heads on entering any kind of private premises, including offices, and in some parts even banks.

It was, until recently, considered extremely rude for a man in Poland to enter even a shop without removing his hat, and it was not unusual for a customer who omitted this formality to be told that he would be attended to when compliance with the demands of politeness should entitle him to the shopkeeper's consideration. It was only a few years before the war that this practice came gradually to be abandoned. The reform was largely due to the action of the more important tradespeople in the principal towns, who exhibited notices in their shops saying, "Gentlemen are requested not to remove their hats."

In Poland and Russia visitors are expected to leave in the hall not only their goloshes, but hat, coat, and stick as well, no matter how short their stay. Clients calling on professional men are expected to do the same.

### Important Scientific Discovery.

The use of water holding fine sand in suspension is a novel plan for separating materials of different specific gravity. A chemical solution of a density somewhat greater than that of the lighter material has served in the laboratory, but this has been commercially unsatisfactory on account of the cost of the chemicals and the difficulty of removing them from the substances separated. The mechanical mixture containing sand held up in water by agitation has been found to take the place of the true solution of the same density. It is stated that with quartz sand and water, coal may be freed from its ordinary impurities, and magnetic iron ore sand gives a fluid of sufficiently high specific gravity to float quartz, limestone and feldspar, while such heavy particles as those of galena ore or metallic copper may be used for fluids to float off still heavier solids.

The shipment to division headquarters on October 12 was 480 5-yard auze rolls and 950 refugee garments. This is part of the quota assigned.

The last six cases of old clothing for Belgium relief have been sent to division headquarters. Nodaway county's quota of old clothing was 2,000 pounds, but the people' respone to the request was so generous that, instead of one ton, six tons of cast off garments, requiring 60 cases having been sent to New Jersey for shipment.

Attention Volunteer Workers: Nodaway county's quota of material for 4,000 18x23 paper backed pads has been received. It will take additional workers to get the quota out on time. Due to the influenza quarantine the time has been extended for a few days. Its a big job—the kind that goes to chapters that have a record for promptness—and that's the kind of record we want to keep up. The emergency is growing day by day as the battle continues in France with increasing casualties. Auxiliary heads are urged to see that their members make increased effort to help get this job out on time.

### Regarding Rankin Lyle Article.

Complaint is made to the Democrat-Forum by the family of Mr. Rankin Lyle regarding the article contained in Saturday's paper concerning him.

It is contended the article bears the meaning that Mr. Lyle had refused to subscribe for any bonds whatever of the Fourth Liberty Loan. The meaning intended to be conveyed was that Mr. Lyle refused to make a subscription in the amount that the committee was asking for, which was $700, he having subscribed for $100 in bonds at his bank early in the campaign.

## Nothing Gives More Pleasure Than

# Furniture

Nothing gives the real and lasting pleasure than does beautiful furniture. Home and its comforts are the dearest possessions, and if we are giving presents to members of the immediate family, nothing is quite so appropriate.

High grade furniture is not high priced, and we have a stock equal to that of many large city stores in quality and variety of styles. Many beautiful suites and single pieces in period and modern designs.

We are selling these goods regardless of market prices, and for that reason you will find that you can buy here for less than in the larger cities. We also make a 10 per cent cash discount which, if you take advantage of will make your home furnishing most reasonable.

But let us urge you to make your selections while the stock is so complete, and do your holiday buying now as a help to the government in handling the Christmas business.

Shop early and help the Government conserve more power.

## INSTRUCT NEW MEN

40 ARE IN QUOTA GOING TO CAMP BOWIE, TEXAS, TOMORROW

## LEARN REQUIREMENTS

**Speakers Explain What Is Expected of Men in Camp and on the Firing Line.—7:50 Burlington.**

Forty men called to go to Camp Bowie, Fort Worth, Texas, were given preliminary instruction this morning prior to their entrainment tomorrow morning that they might have a closer knowledge of what will be required of them as soldiers. The men were assembled in the circuit court room, where they were given information concerning army life and the things that go to make a good soldier.

Lieut. Burns in charge of the Student Army Training Corps at the Normal, presented a picture of life in camp and told the men what would be required of them in a military way.

M. E. Ford spoke briefly concerning the causes of the war and the things for which America stood. Rev. C. Emerson Miller enumerated some of the moral and spiritual requisites that go to make a good soldier than which no finer exists that the American man in khaki who fights under the Stars and Stripes.

George Robb Ellison and Miss Bettie Turner of the Home Service department explained briefly the benefits of the service, Mr. Ellison telling at some length the provisions made by the government for insurance, allottments and allowances.

John E. Stephenson of Ravenwood, was put in charge of the men during their trip to Fort Worth. The men were given permission to return to their homes this afternoon, to report for entrainment Wednesday morning via the Burlington. Those who live where access to the road is easier than to come to Maryville were given permission to entrain from their closest railroad station.

The men will be escorted to the depot in the morning by the Home Guards who will assemble at the armory at 7:15 o'clock and march to the Burlington station.

## HEROIC ACT IS WARDED

**Honor Comes After Death to Franklin D. Bellows, Aviator, Who Rests in Grave in France.**

Second Lt. Franklin D. Bellows, the son of Mr. and Mrs. John Bellows of Wilmette, Ill., and a nephew of Charles D., Fayette and Mrs. George P. Bellows of this city, who was killed Sept. 15, in action near St. Mihiel, France, has been rewarded with the Distinguished Service Cross by General Pershing.

Lieut. Bellows and Second Lieut. Dave C. Beebe, observer and pilot with the 50th aero squadron, together made the flight which won recognition for both from their commander-in-chief and the particulars are told in the following citation from headquarters:

Second Lieut. Dave C. Beebe, Pilot, 50th Aero Squadron—For extraordinary heroism in action near St. Mihiel, France, Sept. 13, 1918. Lieut. Beebe, with Second Lieut. Franklin B. Bellows, observer, executed a reconnaissance mission early in the morning of the second day of the St. Mihiel offensive, in spite of clouds, high wind, mist flying at an altitude of 300 meters and without protection of accompanying battle planes. Although subjected to severe fire from ground batteries, they penetrated eight kilometers behind the German lines. Lieut. Beebe's motor was badly damaged and his observer, Lieut. Bellows was mortally wounded. Despite these conditions he succeeded in bringing the disabled machine safely to his lines. Address, Syracuse, N. Y.

Franklin D. Bellows, deceased, Observer, 50th Aero Squadron—For extraordinary heroism in action near St. Mihiel, France, Sept. 13, 1918. (See above citation). Address, Wilmette, Ill.

## WILFLEY TO SPEAK

TO DELIVER POLITICAL ADDRESS HERE OCTOBER 25.

## SUPPORT WAR PROGRAM

**Senator Points Out Need For a Full Vote at Coming November Election.—On Tour of State.**

Senator X. P. Wilfley will speak at the court house in this city Friday night, October 25, at 8:30 o'clock, in the interest of the Democratic candidates. This will be Mr. Wilfley's second visit to our city, he having made a speech here during the primary campaign.

Senator Wilfley left St. Louis yesterday to make a campaign tour of the state which will close on election day. In a statement, Senator Wilfley says:

"Since Fourth Liberty Loan campaign is ended it is important and proper to take up the coming election. While the situation look unusually favorable to the Democrats, it is important that we have a full vote, which always insures the party's success in Missouri.

"The importance of this election cannot be overestimated. This is a critical time in the progress of the war. The status of the diplomatic negotiations is especially important. President Wilson has shown himself master of the situation and has gotten Germany committed to all the terms of peace which he has dictated, a remarkable result for such a brief interchange of notes.

"The appeals of Germany, Austria and Turkey show that the world is looking to Woodrow Wilson to work out a basis of settlement of the complicated international questions necessary to bring peace.

"His negotiations all point to an unconditional surrender of the armies and navies of the Central Powers. No man can say that he has not acted with courage and wisdom. The present status of the diplomatic negotiations is delicate and difficult.

"It is not only necessary to support the war program of the President, but is very necessary at this time to stand by him in the position he has taken in these negotiations.

"I feel that it is extremely important to elect a Democratic Congress to show to the world that the American people are in favor of a vigorous prosecution of the war, and approve the fearless and determined position taken by Woodrow Wilson.

"Joseph W. Folk, our candidate for the United States Senate from Missouri has been tried in places of public trust and has always proven able and faithful. His experience in Washington has peculiarly fitted him for the United States Senate at this time. His association with and friendship for the President is such that those who believe in the policies of Woodrow Wilson can without hesitancy give him their unstinted support.

"On the State ticket with Gov. Folk we have two other exceptionally strong men. Judge W. W. Graves, by his learned decisions on the Supreme bench, has taken rank with the leading jurists of this country. He is one of the strongest men who has been on the Supreme bench in many years.

"Uel W. Lamkin, for Superintendent of Schools, is a man of fine personality and ability and has made a record as State Superintendent of Schools that has attracted attention throughout the country. He is a progressive school man and stands as one of the active educators of the United States.

"The Democratic nominees for Congress in Missouri are all men of splendid ability and are able champions of President Wilson's war program. We must support that program, and the best way to do at this time is to support the Democratic ticket."

## SISTER DIES IN ST. JOSEPH

## POLK REACHES GOAL

LOAN QUOTA OF $296,300 Is Fully SUBSCRIBED

## COUNTY SHORT $40,000

**Complete Reports From All Townships Not Yet in.—Local Committee Plans Celebration.**

Polk township went over the top today in the Fourth Liberty Loan with her quota of $296,300 fully subscribed. The soliciting committee worked unceasingly and their efforts were rewarded with success. So earnest was their work that Monday they did not stop for dinner, but kept at it during the entire day.

With complete reports from the other townships in the county not yet available it is estimated by Chairman W. C. Pierce that the county outside Polk township is yet short between $40,000 and $45,000, approximately $15,000 having been reported up to late last night.

In celebration of Polk township's achievement in reaching the mark set the committee composed of Ed Keck, W. W. Jones, H. L. Raines and M. E. Ford have announced a patriotic jubilee to be held Thursday evening at 7:30 o'clock on the court house lawn. There will be patriotic speeches and a Liberty Flag raising, the emblem to be raised by the Boy Scouts.

Further announcement of the details of the program will be announced by the committee tomorrow.

## PLAN FOR COMING EVENTS

**Northwest Missouri High Schools Are Urged to Enter Association.—Forty-three Are Now Members.**

Herman P. Swinehart, corresponding secretary of the Northwest Missouri High School Association, has written the high schools in this district urging them to join the association. There are 115 high schools in this district and forty-three of them are members. The membership fees are $2 for first-class schools, $1.50 for second class schools, and $1 for third class schools, as classified by the State Department. The entry fees are payable each year and consist of an assessment of twenty-five cents for each event entered during the year. The events are six in number: Debates, literary contests, song, basketball, track and football.

# FOCH HITS NEW BLOW

**STRONG FRENCH FORCES TODAY DELIVERED A NEW ASSAULT ON FLANDERS FRONT—IN SPITE OF STIFFENED RESISTENCE THE ALLIES ARE SWEEPING ON**

## AT VALENCIENNES

BRITISH ARE NOW BUT HALF A MILE FROM CITY COMPLETING POCKET MOVEMENT

## YANKS IN HARD FIGHTING

EAST OF VERDUN THE GERMANS ARE OFFERING DESPERATE RESISTANCE, BUT AMERICANS PUSH AHEAD

## FRENCH ARE AT THE DANUBE

**Have Cut Another Line of Communication Between the Central Empires and Constantinople.**

London, Oct. 22.—A new attack was begun on the Flanders front by the French today and excellent progress was made in the direction of Ghent. The new assault was delivered by strong forces.

London, Oct. 22.—German resistance has stiffened at some points throughout the past twenty-four hours on the western battle front. The Allied advance continues, however, and the big German base at Valenciennes has been steadily pocketed, the British being now only half a mile away from the city. Between the Escaut canal and the Lys river the British gained nearly a mile. This advance was carried out in the district north of the triangle formed by the cities of Lille, Roubaix and Turcoing. Deynse is surrounded by the French and British and its fall is imminent, if it has not already been captured.

The Allied forces east of Cambrai are now only fourteen miles from the German stronghold at Aulnoye which General March, chief of staff recently described as one of the most vital German key positions on the western front.

The Americans are meeting with desperate resistance northwest of Verdun but are carrying out a steady operation and in spite of the stormy weather and strong opposition are steadily going forward.

London, Oct. 22.—The Allies made a new advance of nearly a mile between the Scheldt river and the Lys river, on the Flanders front, the war office announced today. The Germans abandoned their defense guns on the coast including the long range cannon that has been shelling Dunkirk.

London, Oct. 22.—The French have reached the Danube river, cutting another line of communication between the central empires and Constantinople. Turkey's departure from the war and from the German alliance is expected to be hastened by latest developments on the Balkan front.

London, Oct. 22.—The Serbians and French are rapidly approaching the border of Herzogovina, an Austrian province bordering Montenegro on the north and Serbia on the northeast, said an official dispatch today. The German commander on the Serb front is attempting to concentrate his forces, but great numbers of Austro-Hungarian and his German soldiers are deserting, thus hindering the movement.

## EVERETT WILSON, 25, DEAD

**Died This Afternoon at the Family Home in Parnell.—Death Due to Pneumonia.**

Everett Wilson, the son of Mr. and Mrs. B. L. Wilson of Parnell, died this afternoon at the family home. Death was due to pneumonia. No arrangements have yet been made for the funeral services.

The young man was 25 years old and is survived by his parents and five brothers and sisters. They are Mrs. M. Price, Hugh, Charlie, Ara and Frank Wilson.

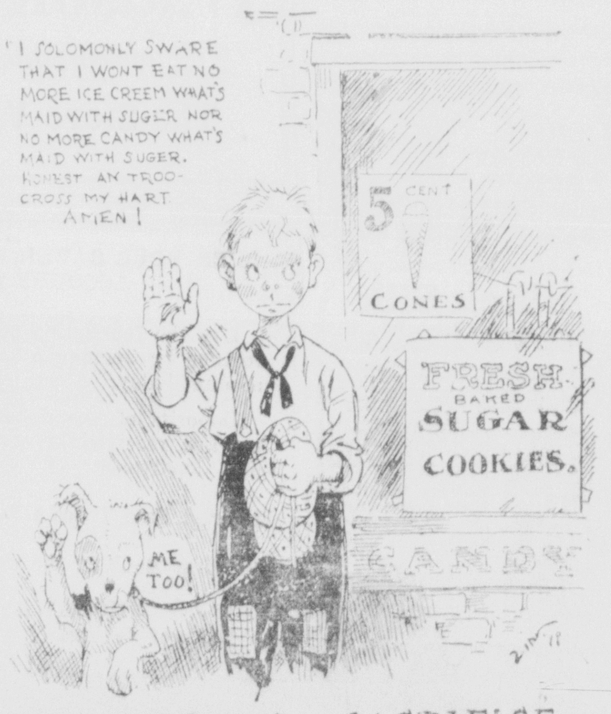
**3,000 KILLED IN RIOTS.**

Special to The Democrat-Forum.

London, Oct. 22.—Three thousand persons have been killed in riots in Sofia, Bulgaria, according to a Copenhagen dispatch to the News Agency. The Bolsheviki agitators are declared to be responsible. Copenhagen also reports one hundred German soldiers were drowned when a German troop ship struck German main land while bound from Riga to Danzig.

**Mrs. Born Dies With Pneumonia.**

Mrs. Elizabeth Howland and daughter, May, went to Savannah yesterday afternoon, called there by the serious illness of Mrs. Howland's sister, Mrs. Emma Born, who died at 4:30 o'clock this morning. Mrs. Born's death was due to pneumonia.



AN HEROIC SACRIFICE.

## WAITING WILSON'S ANSWER

WITH MIND MADE UP, ANNOUNCEMENT IS EXPECTED ON HUN NOTE LATE TODAY

## ACTION MAPPND OUT

IT IS TXPECTED HE WILL PLACE OFFICIAL VERDICT OF "UNSATISFACTORY" ON REPLY

## THE ANSWER IS COMPLEX

**Lord Northcliffe Says It May Be a Move to Gain Time.—Denial of Outrages Was Expected.**

Washington, Oct. 22.—President Wilson has fully decided on his attitude toward the latest German note regarding armistice. His first action was mapped out at a conference last night with Secretary Lansing and with other officials today. He expected to make a definite announcement dealing with the matter late today or tomorrow.

Washington, Oct. 22.—The world waited on President Wilson today. He was expected to place the official verdict of unsatisfactory on the latest German note which was officially delivered at ten o'clock this morning by the Swiss charge. Just how far he would go down only the President himself, and Secretary of State Lansing knew.

London, Oct. 22.—Lord Northcliffe, commenting on Germany's reply said:

"A hasty perusal of the German note reveals that, with truly Prussian selfishness, no mention is made of Austria-Hungary or Turkey. It seems to me that the document may be read either as a means to gain time or as a confession of a state of affals militarily and economically worse than we know.

"The German government may be hoping to exploit the conditions of the armistice as an outrage upon German honor and as a means of rallying the German nation for desperate resistance, or it may simply be trying to put the President into the positions of trustee for the German people, which will have thrown itself upon his mercy

"The least satisfactory feature of the reply is the shameless prevarication with regard to German outrages on land and sea, and the suggestion that this be dealt with by a neutral commission is a mere subterfuge. The reguments employed to prove that a reform of the German constitution has been accomplished are unworthy of serious consideration.

## FEWER INFLUENZA CASES

**But One Case for Quarantine Was Reported to City Physician Today.—Disease Believed to Be Checked.**

With but one new case of influenza reported to Dr. F. M. Ryan, city physician since last night, the spread of the disease is believed to be checked. No cases were released from quarantine today, due to the absence of Dr. Ryan in the country, but reports made at his office indicate that a number have sufficiently recovered as to permit of quarantine being taken off. No effort will be made, at least for a few days, looking toward lifting the closing order which will doubtless remain in effect for the remainder of the week.

**Say Air and Earth Is Full of Fighting and Bombing.**

Cyrus Reynolds has received the following letter from his son, Floyd Reynolds in France:

Sept. 27.

Dear Father: I will take the time and pleasure to write you a few lines and let you know I am still alive and in good health. We have started a big drive and my division is in the front line doing their bit. This, in my mind is going to be the biggest battle of the war and I think after this the war will not be long. We captured about 3,000 of them yesterday. They say that the artillery fire was the greatest that has ever been known. It almost shook the earth. The sky is full of airplanes and observation baloons and fighting and bombing the country. I will close for this time, hoping to hear from you all in the near future. Your son,

Edward Linneman, the son of Mr. and Mrs. Will Linneman of West Cooper street, is now in army training at Camp Custer, Mich., and in a letter to a Maryville friend, tells how he has been detailed to care for the convalescents.

Camp Custer, Oct. 15.

I may be an exception to the rule but I have found army life alright except the sort of prison confinement, but even with that I have enjoyed myself very much and have had some pretty good times besides unusual experiences * * * For the past ten days I have been acting as orderly in a convalescent hospital, that is I have chareg of a ward and have to help the doctor take temperatures and see that the fellows don't "bunch" and cough in one another's face, etc. Also see that they are properly clothed when they sit outside. So you see I have quite a job although it is easy work. At present I have more time as half my boys have been discharged and sent back to their barracks. * * * They moved us out of the barracks and are now using the building for a convalescent hospital. * *

**Says Going "Over the Top" Is Quite Exciting and Danger Forgotten.**

The following letter is written to his parents, Mr. and Mrs. Lewis Anderson of North Walnut street.

Sept. 30

Dear Folks: I will try to write you a few lines, haven't had time to write for we have been in this big drive you have been reading of back there. We went over the first, it is quite exciting and one forgets all about being in danger. It is about time for taps here but I expect it is about noon or a little later over there. I think there is about seven hours difference between the time here and there. It is raining here this afternoon and has been raining for about two weeks, most every day. It gets pretty muddy but not very deep as this soil is a red clay and very hard. The weather is getting quite cool. I put on my heavy clothes this week so you may guess about how cold it is. I received four letters from you folks at the same time I get letters that have just had time to reach here and then the next time I get letters that have been written quite a while before. The Y. M. C. A. man comes around about once a week but he only has one piece of paper and one envelope to the man. Expect they get pretty heavy by the time he gets here for it takes quite a bunch for so many men. I haven't seen a woman that I could talk to since I landed here except two that were in a Salvation Army Camp, where they stayed for awhile. Don't think I would know how to even talk to a woman if I should come in contact with one.

Well, I will close for I have several letters to write and not much time or material. Will write you again in a few days. This leaves me well and hope it finds every one there the same and tell them all "hello." * *

**Clyde Adcock Writes of Several Who Are Doing Fine.**

Miss Golda Adcock received a letter yesterday from her brother, Clyde, in France, who is driving an army motor truck and says everything is well with him. He writes that he has seen William Gray, Robert Burris, Dick Livasy, Elmer Bagby, Mike Liston, Wilfred White, John Lavelle and Robert Garten, all Maryville boys, who are doing fine.

**Former Tribune Reporter With Hospital Center Over There.**

The following article regarding Geo. M. Crowson, the son of Dr. and Mrs. E. L. Crowson of Pickering and formerly a reporter on the Tribune is taken from yesterday's issue of the St. Joseph News-Press:

George M. Crowson, a News-Press reporter until he entered military service in August is now with the headquarters company of a hospital center far behind the lines in France. He is stationed temporarily in a convalescent camp, in which his duties consist mainly of constructive work in the enlarging of the camp. He writes St. Joseph friends, however, that he has not given up the hope of ultimately getting up to the front. He had a delightful trip through England and likes everything French but the weather.

Private Crowson was sent overseas from Fort Riley, Kan.

A marriage license was issued yesterday at St. Joseph to Roy S. Bratt of Kansas City and Mrs. Sarah E. Putnam of Parnell.

**Typically American— The Tailored Costume**

TODAY the American woman stands ready to put her shoulder to the wheel. She has new work, new problems, new purposes. For these she needs different clothes; garments that answer the requirements of her added duties; fashions that are typically American—the tailored costume.

But the tailored costume, more than any other, must be designed with exquisite care and executed with expert workmanship so as to keep its refined elegance through months of service.

This store has been on the alert and has secured models from only the foremost manufacturers whose expert designers, through many years of experience, have learned to interpret this new need in tailored styles. The highest quality of designing, workmanship and materials is the watchword of this store, and only the models that meet these requirements are accepted.

It's so easy to compromise with yourself when an inferior garment is shown you and say, "Well, I suppose it isn't as good as what I have been getting, but then, these days conditions have changed."

Conditions have changed—have changed so much that it is your duty to buy only the garments you can actually use. But this is no reason for accepting inferior quality, careless workmanship and indifferent style.

The beautiful new Coats and Suits now on display in our ready-to-wear department, in spite of the scarcity of materials, are up to a high standard of quality.

Tailored Suits in rich warm tones of autumn, at **$25.00 to $69.00**, with an attractive assortment at **$39.50 and $45.00.**

Warm winter Coats in new weaves and colors, at **$15.00 to $90.00**, with unusual assortments at **$29.50 and $35.00.**

Select your new Suit or Coat now while the assortment is at its best.

## SPANISH INFLUENZA RAPIDLY SPREADING

Persons Weak and Rundown Easy Victims—Fortify Yourself Against It by Taking Tanlac.

According to late reports issued by State and Federal health authorities the Spanish influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health, but unless checked, it is apt to seriously affect the progress of war work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected.

The disease has made its greatest progress in the East, where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In many cities schools, churches and theaters have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and rundown are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily this warning should be heeded promptly. You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all, Tanlac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in the natural way.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after effects of influenza, grippe or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that the every day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds.

Tanlac is sold in Maryville by the Koch Pharmacy. Adv.

### "ON TO BERLIN"

By a Patriotic Maryville Mother, Who Writes the Way We All Feel.

The following poem, which is tritely expressive of the typical Yank spirit, was written by a prominent Maryville matron who has a son in France and who asserts her patriotism in deeds and words at home while the boy is fighting abroad.

What shall the answer to the peace note be
That we shall send to Germany?
Unconditional surrender is the call
That resounds from one and all.

On to Berlin is the cry,
Throughout this land of ours,
Germany must surrender arms
Unto the Entente powers.

On to Berlin our boys will go,
Triumphant over every foe.
Raise the Stars and Stripes on high,
Bid Autocracy goodbye.

Since the Yanks have taken hand
Bill is ready to disband
Called his sons to all come in
Plan to help him save Berlin.

Now since Bill is on the run,
The boys are having lots of fun.
Of course he's ready to talk peace,
And willing for thies war to cease.
Of course to have his way,
World dominion some other day.
Uncle Sam has made his bow—
Says, "We'll finish the job right now."

We'll keep righth on with all our might
Close up the deal, and do it right.
In years to come as come they will
There'll be no more trouble with
Kaiser Bill.

Hurrah! for our boys and Allies true
Who have undertaken this job to do,
They will ne'er give in nor stop to nap
Until they put Germany off the map.

### Continental Countries Carry Forms of Salutation and Courtesy to What We Consider Extremes.

In all continental countries men lift their hats when saluting one another. It is also customary for them to uncover their heads on entering any kind of private premises, including offices, and in some parts even banks.

It was, until recently, considered extremely rude for a man in Poland to enter even a shop without removing his hat, and it was not unusual for a customer who omitted this formality to be told that he would be attended to when compliance with the demands of politeness should entitle him to the shopkeeper's consideration. It was only a few years before the war that this practice came gradually to be abandoned. The reform was largely due to the action of the more important tradespeople in the principal towns, who exhibited notices in their shops saying, "Gentlemen are requested not to remove their hats."

In Poland and Russia visitors are expected to leave in the hall not only their goloshes, but hat, coat, and stick as well, no matter how short their stay. Clients calling on professional men are expected to do the same.

### Important Scientific Discovery.

The use of water holding fine sand in suspension is a novel plan for separating materials of different specific gravity. A chemical solution of a density somewhat greater than that of the lighter material has served in the laboratory, but this has been commercially unsatisfactory on account of the cost of the chemicals and the difficulty of removing them from the substances separated. The mechanical mixture containing sand held up in water by agitation has been found to take the place of the true solution of the same density. It is stated that with quartz sand and water, coal may be freed from its ordinary impurities, and magnetic iron ore sand gives a fluid of sufficiently high specific gravity to float quartz, limestone and feldspar, while such heavy particles as those of galena ore or metallic copper may be used for fluids to float off still heavier solids.

Call at headquarters for your boy's copy of "Home News." Enclose it with your next letter to him, using a legal sized envelope. When you hear from him about "Home News" tell your chapter and branch officials what he thinks of it. It is censored, is free from advertisements and contains nothing but items of county interest.

The shipment to division headquarters on October 12 was 480 5-yard auze rolls and 950 refugee garments. This is part of the quota assigned.

The last six cases of old clothing for Belgium relief have been sent to division headquarters. Nodaway county's quota of old clothing was 2,000 pounds, but the people' respone to the request was so generous that, instead of one ton, six tons of cast off garments, requiring 60 cases having been sent to New Jersey for shipment.

Attention Volunteer Workers: Nodaway county's quota of material for 4,000 18x23 paper backed pads has been received. It will take additional workers to get the quota out on time. Due to the influenza quarantine the time has been extended for a few days. Its a big job—the kind that goes to chapters that have a record for promptness—and that's the kind of record we want to keep up. The emergency is growing day by day as the battle continues in France with increasing casualties. Auxiliary heads are urged to see that their members make increased effort to help get this job out on time.

Through a misunderstanding of instruction it is learned that some of the instructors are wearing the wrong color of coif. Here are the rules.

Blue coif for head of departments.
Red coif for instructors.
White coif with red band for student instructors.
White coif for volunteer workers.

### Regarding Rankin Lyle Article.

Complaint is made to the Democrat-Forum by the family of Mr. Rankin Lyle regarding the article contained in Saturday's paper concerning him.

It is contended the article bears the meaning that Mr. Lyle had refused to subscribe for any bonds whatever of the Fourth Liberty Loan. The meaning intended to be conveyed was that Mr. Lyle refused to make a subscription in the amount that the committee was asking for, which was $700, he having subscribed for $100 in bonds at his bank early in the campaign.

**Held High Rank as Physician.**

Dr. Philip S. Physick, often called "the Father of American Surgery," was one of the most eminent physicians of his day, ranked very high as a practical surgeon and was exceedingly popular as a lecturer. His father, an Englishman, had charge of the estate of the Penn family. The son was born in Philadelphia July 7, 1788, was educated for the medical professior partly in that city and partly in Edinburgh, Scotland, where he was graduated with high honors. On his return to the United States he began to practice in Philadelphia and soon won professional honors. In 1831 Doctor Physick won a national reputation by the successful performance of a surgical operation on Chief Justice Marshall, followed by a perfect cure. He died in Philadelphia December 16, 1837.

## THE SECOND LINE OF DEFENSE

From the Mississippi valley to the flaming front in Flanders is not as far today as the distance from Paris to Berlin. The Atlantic ocean is not as wide as the River Somme. The girl in the munition factory in the middle West is very close to her brother in the front-line trenches. If her work falters, if one untrue torpedo passes the careful scrutiny of the inspector, the lives of American soldiers pay the price.

It is as necessary to keep the girl who makes the shells physically fit and high of courage as the man who fires the gun.

The glory and excitement of war are for the man in khaki. Grinding, monotonous labor far away from the flying flags and martial music is the portion of the girl who makes munitions.

One and a half million women and girls have marched into the service of the United States government, to take the places of the men who have been called to the colors. With every draft and with the opening of every munition cantonment the number is multiplied. These girls work long hours and the work is hard and monotonous. Furthermore, they work at high nervous tension. On the skill of their fingers and the accuracy of their eyes depends the lives of many soldiers, the winning or losing of many battles.

"I can't sleep at night because I'm so afraid I may have passed on something that was not quite true," said one young girl not yet in her twenties, who inspected hundreds of torpedoes every day.

Unless something can make this girl forget at night, and find some rest, her hand will lose its cunning.

"Nights and Sundays," said another, "I walk and walk, and I never go the same route twice until I have worn out all the others, and yet I can't forget that perhaps some time, somehow, during the day something may have gone through that was not quite right."

"I was just on the edge of going back home," said another. "I couldn't stand it. Then the recreation leader asked me if I played basket ball, and I told her I was too old. I'm twenty-eight. She insisted that I just try throwing the ball, and now I'm captain of the basket ball team. I play tennis, and can 'set up' and 'wig-wag,' and they're going to make me forewoman of the room. That would have frightened me to death once. But everything is different now, that we have our War Service club."

The war department had seen the need of occupations for out-of-work hours if the employees were to work at their greatest efficiency, and through the ordnance department asked the Young Women's Christian Association for recreation leaders, to line up the girls and direct their free-time pleasures.

The government reminded the Y. W. C. A. that as an organization it always had had an interest in the right housing of girls, in the right feeding of girls, and in the right education of girls, and that the intelligent care of these girls in the munitions factories was one of the essentials in the winning of the war. The government could house and feed them. It could put up recreation buildings, but when this was done it was as helpless as the father of a motherless girl. The government is a composite man. He didn't know what a girl should do when the six o'clock factory whistle blew. He only knew she needed looking after and he called to the one woman's organization that for half a century had made a study of the needs of girls. Vaguely, he had an idea that she should be encouraged to play, that she needed wholesome recreation, and some one, wise and sympathetic as a careful mother, to guide her social activities.

The Blue Triangle sent its play lady to salute and go to work. Workers are asked for in recreation buildings of all the 22 federal industrial reservations or munition cantonments which have been opened this summer in several of the states. These reservations sprung up out of the very fields in a few weeks. They are employing thousands of workers. Many of these women have come from far distant homes. The government provided dormitories and mess barracks. In some places it is putting up recreation buildings. Where such a building is not provided by the government, the Y. W. C. A. will furnish it, using one already standing when available, and building when that is necessary. All these buildings, whether government or association-owned, will operate under the sign of the Blue Triangle. They will have big living rooms, assembly rooms for entertainments, club rooms, and gymnasiums. The Blue Triangle will furnish a program of service work, educational classes, games and entertainments. Military and signal corps drills will be in charge of soldiers.

In Washington, the members of the Business Women's council, a Blue Triangle league of the Y. W. C. A., made up of girl government employees, drill twice a week under an army officer, and between five and six o'clock on these days long lines of motorcars are parked to watch the drill.

Wherever possible the recreation equipment includes a field somewhere for outdoor sports.

War clubs are a part of the plan and membership in these involves a pledge to serve to the best of the girl's ability in the ranks of the Woman's Industrial Army—the "second line of defense," and a promise of loyalty by promoting in every possible way the spirit of service.

### OBITUARY.

Mamie Elatha Walker Dietrick was born about seven miles northwest of Barnard, July [illegible] and departed from this life at her home within a couple of miles from her birthplace, Oct. 17, 1918, aged 27 years, 3 months and 13 days. In the year 1907 she was united in marriage to Charles Edward Dietrick. To this union was born one child, Dale Dietrick. Nearly two weeks previous to her death, she contracted the la grippe, which later developed into pneumonia. Mrs. Dietrick was well known in the neighborhood, having a large circle of friends, who knew her from childhood. She was always of a jovial disposition, having a kind word for everyone. She was a loving mother, and an affectionate wife, and a congenial neighbor. Besides her husband she leaves to mourn one son, two brothers, C. E. Walker of Sheridan, Wyo., J. E. Walker, Seymour, Iowa, two sisters, Ida Young, Bolckow, Mo., Carrie Alkire, Hagan, N. Dakota, besides many relatives, as well as a host of friends. The funeral services were held from the home in the presence of many sympathizing friends, Saturday afternoon at 2:30. Rev. Arthur S. Olsen officiating. She was tenderly laid to rest in the Graham cemetery.

HOW STRANGE THINGS SOMETIMES HAPPEN.

"I want to write you to let you know that I have taken 2 more doses of Mayr's Wonderful Remedy, and have gained 10 lbs in the last 2 weeks, although I am thinner around the waist than before, because the bloating in my stomach has all gone and I am feeling like a boy again. There never was anything in this world half as good as this medicine." It is a simple, harmless preparation that removes the catarrhal mucous from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Adv.

**THINKS THE BIG DRIVE GREAT.**

**Say Air and Earth Is Full of Fighting and Bombing.**

Cyrus Reynolds has received the following letter from his son, Floyd Reynolds in France:

Sept. 27.

Dear Father: I will take the time and pleasure to write you a few lines and let you know I am still alive and in good health. We have started a big drive and my division is in the front line doing their bit. This, in my mind is going to be the biggest battle of the war and I think after this the war will not be long. We captured about 3,000 of them yesterday. They say that the artillery fire was the greatest that has ever been known. It almost shook the earth. The sky is full of airplanes and observation balloons and fighting and bombing the country. I will close for this time, hoping to hear from you all in the near future. Yours son,

**Edward Linneman Made Orderly in Camp Custer Hospital.**

Edward Linneman, the son of Mr. and Mrs. Will Linneman of West Cooper street, is now in army training at Camp Custer, Mich., and in a letter to a Maryville friend, tells how he has been detailed to care for the convalescents.

Camp Custer, Oct. 15.

I may be an exception to the rule but I have found army life alright except the sort of prison confinement, but even with that I have enjoyed myself very much and have had some pretty good times besides unusual experiences * * * For the past ten days I have been acting as orderly in a convalescent hospital, that is I have chareg of a ward and have to help the doctor take temperatures and see that the fellows don't "bunch" and cough in one another's face, etc. Also see that they are properly clothed when they sit outside. So you see I have quite a job although it is easy work. At present I have more time as half my boys have been discharged and sent back to their barracks. * * * They moved us out of the barracks and are now using the building for a convalescent hospital. * *

**Says Going "Over the Top" Is Quite Exciting and Danger Forgotten.**

The following letter is written to his parents, Mr. and Mrs. Lewis Anderson of North Walnut street.

Sept. 30

Dear Folks: I will try to write you a few lines, haven't had time to write for we have been in this big drive you have been reading of back there. We went over the first, it is quite exciting and one forgets all about being in danger. It is about time for taps here but I expect it is about noon or a little later over there. I think there is about seven hours difference between the time here and there. It is raining here this afternoon and has been raining for about two weeks, most every day. It gets pretty muddy but not very deep as this soil is a red clay and very hard. The weather is getting quite cool. I put on my heavy clothes this week so you may guess about how cold it is. I received four letters from you folks at the same time I get letters that have just had time to reach here and then the next time I get letters that have been written quite a while before. The Y. M. C. A. man comes around about once a week but he only has one piece of paper and one envelope to the man. Expect they get pretty heavy by the time he gets here for it takes quite a bunch for so many men. I haven't seen a woman that I could talk to since I landed here except two that were in a Salvation Army Camp, where they stayed for awhile. Don't think I would know how to even talk to a woman if I should come in contact with one.

Well, I will close for I have several letters to write and not much time or material. Will write you again in a few days. This leaves me well and hope it finds every one there the same and tell them all "hello." * *

**Clyde Adcock Writes of Several Who Are Doing Fine.**

Miss Golda Adcock received a letter yesterday from her brother, Clyde, in France, who is driving an army motor truck and says everything is well with him. He writes that he has seen William Gray, Robert Burris, Dick Livasy, Elmer Bagby, Mike Liston, Wilfred White, John Lavelle and Robert Garten, all Maryville boys, who are doing fine.

**CROWSON NOW IN FRANCE.**

**Former Tribune Reporter With Hospital Center Over There.**

The following article regarding Geo. M. Crowson, the son of Dr. and Mrs. E. L. Crowson of Pickering and formerly a reporter on the Tribune is taken from yesterday's issue of the St. Joseph News-Press:

George M. Crowson, a News-Press reporter until he entered military service in August is now with the headquarters company of a hospital center far behind the lines in France. He is stationed temporarily in a convalescent camp, in which his duties consist mainly of constructive work in the enlarging of the camp. He writes St. Joseph friends, however, that he has not given up the hope of ultimately getting up to the front. He had a delightful trip through England and likes everything French but the weather.

Private Crowson was sent overseas from Fort Riley, Kan.

**Marriage License.**

A marriage license was issued yesterday at St. Joseph to Roy S. Bratt of Kansas City and Mrs. Sarah E. Putnam of Parnell.

# Typically American— The Tailored Costume

TODAY the American woman stands ready to put her shoulder to the wheel. She has new work, new problems, new purposes. For these she needs different clothes; garments that answer the requirements of her added duties; fashions that are typically American—the tailored costume.

But the tailored costume, more than any other, must be designed with exquisite care and executed with expert workmanship so as to keep its refined elegance through months of service.

This store has been on the alert and has secured models from only the foremost manufacturers whose expert designers, through many years of experience, have learned to interpret this new need in tailored styles. The highest quality of designing, workmanship and materials is the watchword of this store, and only the models that meet these requirements are accepted.

It's so easy to compromise with yourself when an inferior garment is shown you and say, "Well, I suppose it isn't as good as what I have been getting, but then, these days conditions have changed."

Conditions have changed—have changed so much that it is your duty to buy only the garments you can actually use. But this is no reason for accepting inferior quality, careless workmanship and indifferent style.

The beautiful new Coats and Suits now on display in our ready-to-wear department, in spite of the scarcity of materials, are up to a high standard of quality.

Tailored Suits in rich warm tones of autumn, at **$25.00 to $69.00**, with an attractive assortment at **$39.50 and $45.00.**

Warm winter Coats in new weaves and colors, at **$15.00 to $90.00**, with unusual assortments at **$29.50 and $35.00.**

**Held High Rank as Physician.**

Dr. Philip S. Physick, often called "the Father of American Surgery," was one of the most eminent physicians of his day, ranked very high as a practical surgeon and was exceedingly popular as a lecturer. His father, an Englishman, had charge of the estate of the Penn family. The son was born in Philadelphia July 7, 1788, was educated for the medical professior partly in that city and partly in Edinburgh, Scotland, where he was graduated with high honors. On his return to the United States he began to practice in Philadelphia and soon won professional honors. In 1831 Doctor Physick won a national reputation by the successful performance of a surgical operation on Chief Justice Marshall, followed by a perfect cure. He died in Philadelphia December 16, 1837.

**All Uphold Red Cross.**

The Red Cross organization is the result of an international treaty entered into by most of the leading nations at a convention held at Geneva, Switzerland, in August, 1864. The treaty sustains the neutrality of Red Cross societies in all countries and on all waters covered by the compact, and insures to it the protection of all conflicting forces in time of war. The nations that are parties to this treaty are the United States, Venezuela, Bolivia, Chile, Peru, Argentina, Great Britain, Germany, France, Belgium, Russia, Austria, Sweden, Norway, Turkey, Greece, Spain, Italy, Serbia, Persia, the Roman states, Switzerland, Japan and other governments to the number of 40 or more.

## THE SECOND LINE OF DEFENSE

From the Mississippi valley to the flaming front in Flanders is not as far today as the distance from Paris to Berlin. The Atlantic ocean is not as wide as the River Somme. The girl in the munition factory in the middle West is very close to her brother in the front-line trenches. If her work falters, if one untrue torpedo passes the careful scrutiny of the inspector, the lives of American soldiers pay the price.

It is as necessary to keep the girl who makes the shells physically fit and high of courage as the man who fires the gun.

The glory and excitement of war are for the man in khaki. Grinding, monotonous labor far away from the flying flags and martial music is the portion of the girl who makes munitions.

One and a half million women and girls have marched into the service of the United States government, to take the places of the men who have been called to the colors. With every draft and with the opening of every munition cantonment the number is multiplied. These girls work long hours and the work is hard and monotonous. Furthermore, they work at high nervous tension. On the skill of their fingers and the accuracy of their eyes depends the lives of many soldiers, the winning or losing of many battles.

"I can't sleep at night because I'm so afraid I may have passed on something that was not quite true," said one young girl not yet in her twenties, who inspected hundreds of torpedoes every day.

Unless something can make this girl forget at night, and find some rest, her hand will lose its cunning.

"Nights and Sundays," said another, "I walk and walk, and I never go the same route twice until I have worn out all the others, and yet I can't forget that perhaps some time, somehow, during the day something may have gone through that was not quite right."

"I was just on the edge of going back home," said another. "I couldn't stand it. Then the recreation leader asked me if I played basket ball, and I told her I was too old. I'm twenty-eight. She insisted that I just try throwing the ball, and now I'm captain of the basket ball team. I play tennis, and can 'set up' and 'wig-wag,' and they're going to make me forewoman of the room. That would have frightened me to death once. But everything is different now, that we have our War Service club."

The war department had seen the need of occupations for out-of-work hours if the employees were to work at their greatest efficiency, and through the ordnance department asked the Young Women's Christian Association for recreation leaders, to line up the girls and direct their free-time pleasures.

The government reminded the Y. W. C. A. that as an organization it always had had an interest in the right housing of girls, in the right feeding of girls, and in the right education of girls, and that the intelligent care of these girls in the munitions factories was one of the essentials in the winning of the war. The government could house and feed them. It could put up recreation buildings, but when this was done it was as helpless as the father of a motherless girl. The government is a composite man. He didn't know what a girl should do when the six o'clock factory whistle blew. He only knew she needed looking after and he called to the one woman's organization that for half a century had made a study of the needs of girls. Vaguely, he had an idea that she should be encouraged to play, that she needed wholesome recreation, and some one, wise and sympathetic as a careful mother, to guide her social activities.

The Blue Triangle sent its play lady to salute and go to work. Workers are asked for in recreation buildings of all the 22 federal industrial reservations or munition cantonments which have been opened this summer in several of the states. These reservations sprung up out of the very fields in a few weeks. They are employing thousands of workers. Many of these women have come from far distant homes. The government provided dormitories and mess barracks. In some places it is putting up recreation buildings. Where such a building is not provided by the government, the Y. W. C. A. will furnish it, using one already standing when available, and building when that is necessary. All these buildings, whether government or association-owned, will operate under the sign of the Blue Triangle. They will have big living rooms, assembly rooms for entertainments, club rooms, and gymnasiums. The Blue Triangle will furnish a program of service work, educational classes, games and entertainments. Military and signal corps drills will be in charge of soldiers.

In Washington, the members of the Business Women's council, a Blue Triangle league of the Y. W. C. A., made up of girl government employees, drill twice a week under an army officer, and between five and six o'clock on these days long lines of motorcars are parked to watch the drill.

Wherever possible the recreation equipment includes a field somewhere for outdoor sports.

War clubs are a part of the plan and membership in these involves a pledge to serve to the best of the girl's ability in the ranks of the Woman's Industrial Army—the "second line of defense," and a promise of loyalty by promoting in every possible way the spirit of service.

OBITUARY.

Mamie Elatha Walker Dietrick was born about seven miles northwest of Barnard, July [illegible], and departed from this life at her home within a couple of miles from her birthplace, Oct. 17, 1918, aged 27 years, 3 months and 13 days. In the year 1907 she was united in marriage to Charles Edward Dietrick. To this union was born one child, Dale Dietrick. Nearly two weeks previous to her death, she contracted the la grippe, which later developed into pneumonia. Mrs. Dietrick was well known in the neighborhood, having a large circle of friends, who knew her from childhood. She was always of a jovial disposition, having a kind word for everyone. She was a loving mother, and an affectionate wife, and a congenial neighbor. Besides her husband she leaves to mourn one son, two brothers, C. E. Walker of Sheridan, Wyo., J. E. Walker, Seymour, Iowa, two sisters, Ida Young, Bolckow, Mo., Carrie Alkire, Hagan, N. Dakota, besides many relatives, as well as a host of friends. The funeral services were held from the home in the presence of many sympathizing friends, Saturday afternoon at 2:30. Rev. Arthur S. Olsen officiating. She was tenderly laid to rest in the Graham cemetery.
